Allowable Subject Matter

1. Claims 1-16 are allowed.
2. The following is an examiner's statement of reasons for allowance: One of the limitations not taught by the prior art is a method/apparatus for controlling a motor comprising an interval edge means for determining intervals between the edges of either a first/second pulse signal and the edges of other pulses detected next and a correction means for determining correction values for the intervals between the pulses. Furthermore, the prior art does not disclose a recording apparatus including an edge interval measuring means for determining edge-to-edge periods, a calibrating means for calibrating the edge-to-edge periods with the reference period for driving a driving object at a constant speed, and a correction means for correction the pulse signals based on the calibration.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rina I Duda whose telephone number is 571-272-2062.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Martin can be reached on 571-272-2800 ext. 37. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
